

Contact & Customer Support

Last Updated: March 25, 2026

At My Shop, we place the highest value on the satisfaction and confidence of our customers. Our dedicated Customer Support team is available to assist with a broad range of enquiries, including order status and tracking, account access and management, product information, payment concerns, returns and refunds, and any technical difficulties encountered while using the platform. Whatever the nature of your concern, we are committed to providing timely, professional, and effective assistance.

How to Contact Us

My Shop offers multiple support channels to ensure that customers can reach us through the method most convenient to them.

Email Support is available for all general enquiries, order-related concerns, and feedback submissions. Customers may contact our team at **support@myshop.vn**. To enable our team to respond as efficiently as possible, we ask that customers include their Order ID where applicable, along with a clear and detailed description of the issue or question. Email support is suitable for non-urgent matters and for cases where documentation or screenshots need to be shared.

Phone Support is available for customers requiring immediate assistance. Our customer service hotline can be reached at **+84-123-456-789** during standard business hours. Phone support is best suited for time-sensitive issues where direct communication is preferred.

Help Center is accessible through the My Shop website and serves as a comprehensive self-service resource. The Help Center contains a regularly updated library of frequently asked questions, step-by-step guides, and tutorials covering key topics such as account management, order tracking, returns and refunds, and payment methods. Customers are encouraged to consult the Help Center in the first instance, as many common enquiries can be resolved quickly through the available resources without the need to contact our team directly.

Response Times

Our Customer Support team endeavors to respond to all enquiries within 24 to 48 business hours of receipt. During periods of elevated demand — such as promotional campaigns, public holidays, or peak shopping seasons — response times may be marginally extended. In all cases, we are committed to ensuring that every enquiry is acknowledged and addressed as promptly as circumstances allow. Customers contacting us via email will

receive an automated acknowledgement upon submission, confirming that their message has been received and is being reviewed.

Business Hours

Customer Support is available Monday through Friday, from 9:00 AM to 6:00 PM (GMT+7). Enquiries submitted outside of these hours, including weekends and public holidays, will be reviewed and responded to on the next available business day. For urgent matters arising outside of business hours, we recommend consulting the Help Center, where answers to many common questions are available at any time.

Feedback and Suggestions

My Shop is committed to continuous improvement, and customer feedback plays an essential role in shaping the quality of our platform and services. We warmly welcome comments, suggestions, and compliments from our customers through any of the contact channels listed above. All feedback is reviewed by our team and taken into consideration as we work to enhance the shopping experience for every user. Your perspective matters to us, and we are grateful for the time taken to share it.

For all enquiries, our team looks forward to assisting you and ensuring that your experience with My Shop is a positive one.
