

Shipping & Delivery Policy

Last Updated: March 25, 2026

This policy outlines how order processing, shipping, and delivery are managed across the My Shop platform. As My Shop operates as a multi-vendor marketplace, products are fulfilled and shipped directly by individual Sellers. Customers should be aware that processing times, shipping methods, and associated costs may therefore vary depending on the Seller from whom a purchase is made. We encourage all customers to review this policy prior to placing an order.

1. Order Processing

Order processing refers to the period between payment confirmation and the moment a Seller dispatches an order to a carrier. The majority of Sellers on our platform process orders within one to three business days of confirmed payment. During this period, the order status in the customer's **"Order History"** section will reflect a transition from **"Paid"** to **"Processing,"** indicating that the Seller is actively preparing the items for shipment. Processing times may vary between Sellers and can be influenced by factors such as product availability, order volume, and item preparation requirements.

2. Shipping Methods and Costs

Shipping costs and estimated delivery timeframes are calculated at checkout, based on a combination of factors including the Seller's logistics arrangements, the weight and dimensions of the item, and the customer's delivery destination. My Shop currently supports two primary shipping options to accommodate varying customer needs.

Standard Shipping is the default delivery option and typically results in delivery within three to seven business days from the date of dispatch. **Express Shipping** is available for customers requiring faster delivery and generally arrives within one to three business days from dispatch. Delivery timeframes are estimates and may be subject to variation due to carrier schedules, public holidays, or unforeseen logistical circumstances.

Customers placing a single order containing items from multiple Sellers should note that each Seller will ship their respective items independently. This may result in multiple separate shipments, each with its own processing timeline, shipping cost, and tracking information.

3. Order Tracking

My Shop is committed to providing full visibility into the status and progress of every order. Once a Seller has dispatched an order, the order status will automatically update to **"Shipped,"** and a shipping confirmation email will be sent to the customer's registered email address. This notification will include the name of the carrier and the tracking number supplied by the Seller, enabling customers to monitor their shipment directly through the carrier's tracking system.

Customers may also review the current status of any order — including **"Shipped"** and **"Delivered"** updates — along with full tracking details, at any time by visiting the **"My Orders"** section of their My Shop account.

4. Changing a Shipping Address

To preserve the accuracy and security of order fulfillment, My Shop is unable to modify the shipping address associated with an order once it has been placed and payment has been confirmed. Customers are strongly advised to verify that their delivery address is correct — both within their account profile and during the checkout process — before finalizing any purchase. Errors in delivery information that are identified after an order has been placed may result in delivery delays or failed delivery attempts for which My Shop cannot be held responsible.

5. Orders Not Received or Lost in Transit

In the event that an order has not arrived by its estimated delivery date, customers are first encouraged to consult the carrier's tracking link for the most recent shipment updates. If the tracking status indicates that the order has been marked as **"Delivered"** but the package has not been received, customers should check with neighbors, building reception, or any designated mailroom or parcel collection point, as packages are occasionally left in alternative secure locations.

If the item remains unlocated after 48 hours from the marked delivery time, customers are requested to contact our Customer Service team at **support@myshop.vn**, providing their Order ID and a brief description of the issue. Our team will liaise directly with the relevant Seller to investigate the matter and work toward an appropriate resolution in a timely manner.

For further assistance regarding shipping or delivery, please do not hesitate to reach out to our Customer Service team through the Help Center on the My Shop platform.
