

Sanquo

Terms of Service & Business Policies

Effective Date: 30 April 2026 | Version 1.0

Section 6: Shipping and Delivery

Sanquo is committed to delivering every order reliably, transparently, and on time. This Section describes the shipping options available to customers, the estimated delivery timelines by geographic zone, the process for tracking a shipment, the restrictions that apply to certain addresses and product categories, and the procedures in place should a package arrive damaged or fail to arrive at all. Customers are encouraged to review this Section before placing an order to ensure that the delivery options available meet their requirements.

6.1 Shipping Options

Sanquo offers three shipping tiers, designed to accommodate a range of delivery priorities and budgets. All options are fulfilled through Sanquo's contracted logistics network, which includes GHN (Giao Hàng Nhanh), GHTK (Giao Hàng Tiết Kiệm), ensuring broad coverage and operational reliability across Vietnam.

- **Express Delivery (Hỏa Tốc):** Same-day or next-day delivery for orders placed before 12:00 PM, available within eligible inner-urban districts of Ho Chi Minh City and Hanoi. This is Sanquo's premium delivery tier, designed for customers for whom speed is the priority. Express Delivery carries a higher shipping fee, which is calculated and displayed transparently at checkout.
- **Standard Delivery (Tiêu Chuẩn):** The default shipping option for the majority of orders across Vietnam, balancing delivery speed with affordability. Standard Delivery is available nationwide and is the option applied when a free shipping promotion is activated. It is the recommended option for most purchases.

Orders that meet or exceed the applicable minimum order value qualify for complimentary Standard Delivery. The free shipping threshold and any conditions attached to it are displayed at checkout and may vary depending on active promotions. Shipping fees for all options are calculated dynamically at checkout based on the customer's delivery address, order weight, and applicable promotional conditions, ensuring that the total cost is always visible before the order is confirmed.

6.2 Delivery Timelines

The estimated delivery timelines below apply from the point of order dispatch — not the point of order placement. Orders are typically dispatched within one (1) business day of payment confirmation. Customers should factor this processing period into their overall delivery expectations. All timelines are estimates; actual delivery times may vary depending on carrier capacity, geographic accessibility, and the circumstances described at the close of this sub-section.

Delivery Zone	Express (Hỏa Tốc)	Standard (Tiêu Chuẩn)
HCM City & Hanoi (Inner urban districts)	Est. 2–4 hours (orders before 12 PM)	Est. 1–2 business days
Provincial cities (Da Nang, Can Tho, Hai Phong, etc.)	Not available	Est. 2–3 business days
Rural & remote areas	Not available	Est. 4–7 business days
Remote island territories	Not available	Est. 5–10 business days

Delivery timelines may be affected by peak trading periods — including Tết (Lunar New Year), national public holidays, and major promotional sales events — as well as by adverse weather conditions or force majeure circumstances beyond Sanquo's or its carriers' reasonable control. Where Sanquo becomes aware of a significant delay affecting a customer's order, it will communicate this proactively by email or in-app notification. Customers experiencing unexpected delays are encouraged to contact Sanquo's support team for assistance.

6.3 Tracking Orders

Sanquo provides end-to-end shipment visibility for every dispatched order. The following steps describe how to track a shipment from dispatch to delivery. Tracking information is typically activated within two (2) to four (4) hours of the dispatch confirmation email being sent; activation may take longer during peak periods.

Step 1 — Receive the Dispatch Confirmation: Upon handover of the order to the carrier, Sanquo sends an automated dispatch confirmation email to the customer's

registered email address. This email contains the order's unique tracking number and a direct link to the carrier's tracking page.

Step 2 — Track via the Sanquo Platform: Log into your Sanquo account and navigate to "My Orders." Select the relevant order and click "Track Shipment" to view the current delivery status and carrier updates, as reflected within the Sanquo interface.

Step 3 — Track via the Carrier's Platform Directly: For the most current status, customers may visit the carrier's own website or mobile application and enter the tracking number provided in the dispatch confirmation email. The carrier's platform is updated in real time and may reflect status changes before the Sanquo interface.

Step 4 — Enable SMS and Push Notifications: Where the customer has enabled notifications in their account settings, Sanquo sends automated alerts at key delivery milestones, including order dispatch, out-for-delivery status, and confirmed delivery. Notification preferences can be managed at any time under Account Settings.

Step 5 — Contact Support if Tracking is Unavailable: If the tracking number provided is not yet active, or if no updates have appeared within twenty-four (24) hours of receiving the dispatch confirmation email, customers should contact Sanquo's support team. The support team will liaise with the carrier directly on the customer's behalf to investigate and provide an update.

6.4 Shipping Restrictions

Sanquo currently delivers exclusively within Vietnam. International shipping is not available at this time. Within Vietnam, the following restrictions apply to delivery addresses and product categories.

Deliveries to P.O. boxes, military addresses, and unmanned locations are not supported. All orders require a valid residential or commercial delivery address with a contactable recipient present at the time of delivery. Certain remote island territories and areas without established courier infrastructure may not be serviceable by Sanquo's current logistics partners; customers in such locations will be notified at the checkout stage if delivery to their address is unavailable.

Specific product categories may be subject to shipping restrictions based on dimensions, weight, or regulatory classification. For example, oversized accessories or garments shipped in rigid packaging may attract dimensional weight surcharges or require specialist handling arrangements. Any such surcharges will be communicated transparently at checkout before the order is confirmed.

Sanquo reserves the right to decline shipment of any order to an address or region where delivery cannot be completed safely, lawfully, or reliably. In such cases, the affected order will be cancelled and a full refund issued to the customer's original payment method. Customers are responsible for ensuring that the delivery address entered at checkout is accurate and complete; Sanquo cannot accept liability for failed or delayed deliveries resulting from an incorrect or incomplete address provided by the customer.

If you are unsure whether your delivery address falls within a serviceable zone, please contact Sanquo's support team before placing your order. We will confirm availability and advise on the most suitable shipping option for your location.

6.5 Damaged or Lost Packages

Sanquo takes responsibility for the condition and delivery of every order from the point of dispatch to the point of confirmed receipt. In the event that a package arrives in a damaged condition or is confirmed as lost in transit, Sanquo is committed to resolving the matter promptly, fairly, and without placing an undue burden on the customer.

Damaged Packages

Step 1 — At the Point of Delivery: If a package arrives visibly damaged, customers are advised to refuse acceptance of the delivery where possible, so that the package is returned to the carrier and the issue is logged at the point of refusal. If the package has already been accepted, customers should photograph the damaged external packaging and the affected item or items immediately upon opening, before any further handling takes place.

Step 2 — Report the Damage to Sanquo: Damage must be reported to Sanquo's support team within forty-eight (48) hours of delivery, by submitting photographic evidence through the Platform's order management interface or by email to support@Sanquo.vn. Damage reports submitted after this window may not be eligible for resolution, as Sanquo cannot verify the condition of the item once a reasonable inspection period has elapsed.

Step 3 — Resolution: Upon receipt of the damage report and supporting photographic evidence, Sanquo will assess the claim within two (2) business days and offer the customer either a replacement item — subject to stock availability — or a full refund to the original payment method. The customer's preferred resolution will be actioned without delay upon confirmation.

Lost Packages

Step 1 — Identify a Potential Loss: If a shipment has not been delivered within three (3) business days beyond the upper estimate of the applicable delivery window, and the tracking information has not been updated within that period, the customer should notify Sanquo's support team to initiate a formal investigation.

Step 2 — Carrier Trace Investigation: Sanquo will open a formal trace investigation with the carrier within one (1) business day of receiving the customer's notification. Trace investigations typically conclude within five (5) to ten (10) business days, depending on the carrier and the complexity of the case. Sanquo will keep the customer informed of progress throughout the investigation.

Step 3 — Resolution: If the carrier confirms that the package is lost, or if the investigation concludes without locating the shipment, Sanquo will offer the customer a replacement item — subject to stock availability — or a full refund to the original payment method. No customer will be left without a resolution. Sanquo bears the cost of all lost package resolutions where the loss is attributable to the carrier or to circumstances within Sanquo's fulfilment process.

Customers are strongly advised to inspect their packages at the point of delivery before signing the delivery receipt or confirming receipt in the carrier's application. A signed receipt or confirmed delivery constitutes acknowledgement that the package was received in apparent good external condition. Damage claims submitted after a signed acceptance may require additional verification and photographic documentation.
