

Cancellation & Returns Policy

Last Updated: November 3, 2025

At **My Shop**, we strive to provide a straightforward and transparent process for cancellations and returns. This policy explains your options if you wish to cancel an order before it ships, as well as what to do if an item arrives damaged, defective, or incorrect. Our goal is to make the process simple, fair, and easy to understand.

1. Order Cancellations

You can cancel an order directly through your My Shop account as long as it has not yet been shipped. To cancel an order, log in to your account and navigate to the "My Orders" section. Locate the order you wish to cancel, and if the "Cancel Order" button is visible, click it to submit your cancellation request. The option to cancel is available only while the order status is **"Created," "Paid," or "Processing"**. Once the order status changes to **"Shipped,"** the order cannot be canceled because it is already with the carrier.

If you cancel an order in the **"Created" (unpaid)** status, the order will simply be marked as "Cancelled," and no payment is required. If your order is in the **"Paid" or "Processing"** status, a refund will automatically be issued to your original payment method. Please allow **3–10 business days** for the refund to appear on your account statement. My Shop's cancellation system is designed to make the process easy and automatic for most standard cases.

2. Damaged, Defective, or Incorrect Items

If you receive an item that is damaged, defective, or not what you ordered, it is important to report the issue promptly. Please notify us within **seven (7) days** of delivery. To submit a claim, contact our **Customer Service Team** and provide your Order ID along with photographic proof of the issue, such as pictures of the damaged item, the packaging, and the incorrect product.

Once we receive your report, our support team will verify the issue. If the problem is confirmed, My Shop will arrange for either a replacement item or a full refund, depending on your preference and item availability. All associated costs for verified claims, such as return shipping, will be covered by My Shop. This manual review process ensures that customers receive support while helping prevent fraudulent claims.

3. General Policy (Items Not Covered)

To maintain a simple implementation within our system, My Shop does not support automated post-delivery returns for reasons such as a change of mind, incorrect size ordered, or other types of buyer's remorse. The only conditions under which a return or refund is allowed after delivery are for items that are damaged, defective, or incorrect, as

described in Section 2. Customers are encouraged to carefully review the product details before completing a purchase.

4. Abuse and Fraud Prevention

My Shop's policies are designed to build trust between our platform and customers. We monitor cancellation and return activity to prevent abuse or fraudulent behavior. Customers who repeatedly submit excessive claims may be subject to additional verification steps or restrictions. In cases where fraud is suspected, My Shop reserves the right to deny a resolution. Our goal is to provide fair treatment to all customers while protecting the integrity of the platform.
