

Shipping & Delivery Policy

Last Updated: November 3, 2025

This policy explains how order processing, shipping, and delivery are managed on the My Shop platform. As My Shop operates as a marketplace, products may be shipped directly by various individual Sellers, which can affect processing times and shipping methods.

Order Processing

Order processing refers to the time it takes for a Seller to prepare your purchase for shipment after payment has been confirmed. Most Sellers process orders within 1–3 business days. Once your order has been confirmed, you will see the order status change from "Paid" to "Processing" in your account's "Order History" section. This status indicates that the Seller is preparing your items for shipment.

Shipping Methods and Costs

Shipping costs and estimated delivery times are calculated during checkout and are determined by the Seller, the size and weight of the item, and the delivery destination. My Shop offers two primary shipping options. Standard Shipping typically delivers within 3–7 business days after the item is shipped, while Express Shipping usually arrives within 1–3 business days. Please note that items from different Sellers in a single order may be shipped separately, which can result in multiple shipments with varying processing times and shipping costs.

Order Tracking

My Shop provides transparent tracking for all orders. Once a Seller ships your item, your order status will be updated to "Shipped." This status update automatically triggers a shipping confirmation email sent to your registered email address, which contains the carrier name and tracking number provided by the Seller. Additionally, you can check your order status, including "Shipped" and "Delivered," as well as tracking information, at any time by visiting the "My Orders" section of your account.

Changing Shipping Address

For security and accuracy in order fulfillment, we are unable to change the shipping address once an order has been placed and paid for. Please ensure your delivery address is correct both in your user profile and during checkout to avoid delays or delivery issues.

Order Not Received or Lost in Transit

If your order has not arrived by the estimated delivery date, first check the carrier's tracking link for the latest updates. If the tracking information shows the order as "Delivered" but you have not received your package, please check with your neighbors, building reception, or mailroom. If you still cannot locate your order after 48 hours, contact our Customer Service team at support@myshop.vn with your Order ID. We will coordinate with the Seller to investigate the issue and help find a resolution.
